I was born on 02-04-18 as second child to the chief accountant Siegfried Simon and his wife Minna, nee Schneider, at Berlin / Spandau, Germany. Both my parents and I are of Jewish descent.

From my birth to the age of 10, i.e. from April 1933 to April 1943, I went to the Municipal Elementary School and at the same time I visited for six years the Municipal High School (Municipal High School) at Berlin / Spandau.

Due to the political situation in Germany I had to leave the school in 1938 and on the beginning of April of the same year I began my 4 year apprenticeship as an offset and lithographic printer with the firm Mallesche Briefwarenfabrik der Jovisbühl Paper goods factory of Berlin / Spandau.

In July 1939, at the end of March 1940, and before the firm was closed as a machine minder until 1941, when I was dismissed, because the firm was taken over by the Reich.

In the summer of 1941 I was arrested together with thousands of other Jews and was sent to the concentration camp near Berlin, the reason being the murder of a member of the German Embassy in Paris, who was shot by a Jew.

Curriculum vitae of D. P. S. Beran

Being born in Vienna (Former capital of Austria) on April 18, 1928, I visited the primary school with the age of 6 years. After having passed this school, I went to study at a technical school for 8 years where I also graduated from.

Having been unable to continue my studies on account of the political change in Austria in March 1938 and being of Jewish religion, I emigrated from Austria on April 9, 1939 to go to Shanghai via Italy where I stayed from April 9 to April 20, 1939.

I arrived in Shanghai with the Italian s.s. "Giulio Cesare" on May 15, 1939.

At the end of May I joined the "Pacific American Trading Co." on Szechuen Rd. where I worked for one month. - After having been unemployed for about 10 days, I got a job at the "E. D. Sassoon Co. Ltd.", Sassoon House, where I worked in the capacity of a clerk and later on as a house-inspector, checking up on houses owned by the Company. With the outbreak of the European war, I was informed to the effect, that my services were not requested anymore. So I applied for a job at the "Committee of European Refugees", Embankment Bldg., where I worked as a clerk and correspondent, speaking German, English and French.

I finally obtained a position in the S. M. P. in July 1940. I joined the S. M. P. for mainly two reasons: a) I had a very keen interest in the Police work and b) to better my parents and my own economic situation.

I beg to point out that my parents, my brother and his wife also stay in Shanghai. My father, who came together with my mother to Shanghai about 3 1/2 years ago is sick for already 5 years so that he could never do any kind of work since then. For the last 2 1/2 months, my father stays in Hospital, whilst my mother works as supervising cook in the "Manila Bar & Restaurant" on Rte. des Soeurs. My brother works as employee of an emigrant owned knitting factory.

I furthermore beg to state that I am holder of a German passport No. 63218, issued in Vienna on December 21, 1939, marked with a "J".

Regarding my passport I applied for it at the Rumanian Association in Shanghai and was given a temporary registration card No. 124 and was told to wait for the necessary papers to come back from Rumania. The war broke out and again was told that nothing could be done till after the war. I applied for my Rumanian passport on Sept. 1939, and as I am of Jewish faith they did not give me a passport so that now I am stateless. I am single and live with my mother and four brothers at Lane 141/4 Flat 2 Sencour Road. I speak English, Chinese and Jewish languages.

My German passport No. 206/39, issued at the Landrat Baden on 14.1.39. expired on 13.1.40. and was not more renewed by the German Consulate in Shanghai I am now stateless. I am of Jewish Religion and my wife, Ella Steinsberg (former Steinberg) born 4.3.1921. is originally Russian Jewish. My interests are represented by the Committee for Jewish Refugees.

I was born 12.4.11. at Vienna (former Austria) as the second son of a doctor. In the year 1912 my parents removed to Baden near Vienna where we were living until 1936. I obtained my first education at a Primary-School at Baden from 1917 to 1921 and from 1921 to 1929 at a Middle-School. After graduating from the middle-school I studied at the University at Vienna in order to become lawyer but did not find much interest in these studies and changed to the High-School for Agriculture, which equals a University. During my summer-holidays I practised at various farms. 1935 I had the opportunity to get the job of a second manager on a big farm and so I dropped my studies and started working. I stayed on this farm for about two years and beginning 1937 I quit working there on my own and got a similar job on a big farm in West-Hungary near Szombathely. When I went to my home-town in the beginning 1938, Austria became a part of Germany and I had no more chance to get back to my employment. As I am Jewish and for this reason could not stay any longer in my home-country I took the first chance to go abroad which was offered to me.

Re soviet citizenship formerly held by
the undersigned.

I was born on the 23-9-12 in Omsk. In 1919 I, with my mother was sent to Harbin and then to Japan, my father remaining in Omsk, where he was a merchant. From Japan in 1921 I arrived at Shanghai and studied here till 1923 in the Shanghai Public School. In 1923 I with mother went to Harbin and in 1925 from there we went to Blagoveschensk where at that time lived my father. From Blagoveschensk we went to Vladivostok and in 1928, after my mother divorced father, I with mother returned to Harbin and lived there till 1933, studying in Dostoevskaya High School and in Polytechnical Institute.

On 28-5-33 I arrived at Shanghai and immediately renounced Soviet citizenship and surrendered my Soviet passport to the Russian Emigrants Committee(soviet citizenship was acquired by me by virtue of birth, as my father living in Soviet Russia was naturally a Soviet citizen). In 1933 for a short period I worked as an electrician and supervisor in Far Eastern Lumber Co. and Electric Service Corp. and in 1934, after the latter firm became bankrupt and I was left unemployed, joined the Russian Regiment at S.V.C. from where on the 16-11-36 I was transferred to the Reserve Unit S.M.P. and on the 20-6-38 I joined S.M.P. as a probationary sergeant.

In 1919 mother and myself were sent away to Chita and from there to Harbin and Japan, my father remaining in Omsk owing to business.

In Shanghai I began my education in Public School. From 1923 to 1926 I was educated in Harbin in the Dostoevskiy's Middle School. In 1926, as my father was still in Russia and could not get a visa abroad, mother and I left Harbin for Blagoveschensk and from there to Vladivostok.

In 1928 mother divorced father and mother and I returned to Harbin where I continued my education in Dostoevskiy's School and from where I graduated in 1931 and the same year entered Harbin Polytechnical Institute where I studied till 1933 when owing to difficult financial circumstances I was compelled to discontinue my education and went to Shanghai.

On the 28th of May 1933 I arrived to Shanghai and immediately renounced Soviet citizenship (citizenship was received by me automatically, by virtue of birth) and surrendered Soviet passport to the Russian Emigrants Committee becoming an emigrant from that time.

From July 1933 to May 1934 I was employed by the Far Eastern Lumber Coy and Electric Service Corp. the latter becoming bankrupt in May 1934 after what I joined Russian Regiment S.V.C.

On the November 16, 1936 I was seconded to the Reserve Unit S.M.P. and on November 20, 1938 I joined S.M.P. as a probationary Sergeant. During my first 3 years of service I was awarded 1 month seniority for successful arrest (misappropriation case) and on the May 20, 1941 I was promoted to the rank of Sergeant.

D.S.97 G.I. Schaie- Personal History of

I was born on the 1-3-1914 at Hohensalza, situated in the former German Province of Posen. My parents were Jewish of German nationality. When after the war 1914-1918 the part in which my home town was situated became Polish, my parents and I emigrated to Breslau, the capital of the German province of Silesia, in order to retain our German nationality.

Shortly after our arrival in Breslau, my father died in August 1920. My mother and I stayed in Breslau until the date of our emigration to Shanghai. In 1920 I entered a private preliminary school and after having finished it, I entered the "Zwinger-Gymnasium" a high school at Breslau. After having attended this school for 6 years I was apprenticed to a firm of textile dealers where I stayed until 1934. Thereafter I accepted a position with another firm in the same line and worked there until June 1938. Having studied English in evening courses, I obtained a certificate from the Breslau School Board to teach English, which I did until my emigration on Jan. 10th, 1939. My and my mother's emigration were prompted by the attitude of the German Government with regard to Jews of German nationality.

Through a decree of the German Government depriving all Jews living outside Germany of their German nationality, I became stateless.

Sir,

The undersigned H. Feder begs to report that he was born in HAVDLOVA CZECHOSLOVAKIA on the 28th of March 1917. I was living there till September 1931 when I joined the Bata Shoe Co., Zlin, Czechoslovakia. The elementary school of 5 years I finished in Havdlova after which I went to the Middle School in the same place. When I finished this I joined the Bata Shoe Co., in Zlin as I mentioned already.

I worked with the Bata Shoe Co., for 8 years after which the Co., deemed me fit to send to Singapore as their representative for export and import. In Singapore I arrived in January 1939 and stayed there till May the same year, after which time I was transferred by my Company to Tientsin to establish there Export Branch. Tientsin I left in July in the same year and came to Shanghai where I was working with the same company till I joined the Police Force. Travelling expenses and all the other expenses were paid by the Company. I left the Company on the end of February 1941 because my salary was not sufficient for me.

I am of Jewish parentage the religion of which I retained. My father Simon Feder and mother Hermine are living in Slovakia TOPOLCANY from whom I have no news for about two years.

I have a Czechoslovakian passport issued by the Consulate of the Czechoslovakian Republic in Bombay on the 29th of January 1940 and expired on the 28th of January 1942. The passport cannot be renewed as we have no Consulate here and owing to the fact it is impossible to send to the Consulate to Bombay. This is my true statement.

SUBJECT: R.U.C. No.27 D.I. Pavloff - Knowledge of English

On November 11, 1942 Reserve Unit Constable No. 27 D.I. PAVLOFF was called to this office for a test of his knowledge of the English language. He was given the attached two newspaper articles for translation into Russian and English, respectively, which he did within about one hour and half.

Both translations have been checked by the undersigned. They are awkward in parts, which may be explained by inexperience in this kind of work (tendency towards literal translation) and rather difficult nature of the articles in question.

On the whole the translations show that Pavloff has a good working knowledge of the English language.

JAPAN REDOUBLING HER WAR EFFORT

The war effort which Japan is now making is literally "all-out." The whole nation is giving an undivided support to the Government in defending East Asia against Anglo-American aggression. All that there remains to be done, therefore, will be for Japan to co-ordinate her all-out war effort to best advantage for her prosecution of the war. It is for this purpose that Japan's National Service Association is planning to launch a nationwide movement on the first anniversary of her declaration of war on the United States and Britain. The projected movement is mainly aimed at further strengthening the fighting spirit among the people, effecting a greater increase in the nation's wartime production and adapting the people's daily life better to the requirements of the war. In promoting the nation's fighting spirit, those participating in the said movement are to call upon the people to take better cognizance of the real situation with which they are confronted and do their bit in fighting Anglo-American influence with a stronger determination. As for the problem of wartime production, the whole Japanese nation is to render an all-out effort in facilitating the reorganization of industries and enhancing industrial efficiency, while for the purpose of better adapting the people's life to wartime requirements, steps are to be taken to encourage the use of unpolished rice as the staple food, increase the people's savings and further prepare the public against possible air-raids on their towns. Keeping pace with this programme, which is primarily meant for Japan proper, the Japanese residents abroad, especially those who reside in China, are also planning to start similar movements for their respective communities.

Yesterday's jubilee of Japan

Yesterday Japanese nation celebrated 70th anniversary of foundation of their Home ^{affair} ministry. This ministry was founded in 1872 because of the reform of whole system of the government which was made by the great Japanese Reformer, H. I. M. Meiji. Because of this reform whole country once and for all was united in one single centre, for whole country was taken ^{an} united plan of public wellbeing, which when carried out after 70 years gave such unprecedented results of religious and physical strength of the nation. Before every other country of the world, Japanese nation showed unity of their people, perfect system of the inner life of the people, perfect organized and united union of those elements by which the strength of the nation in world's scale is judged.

The strength of the nation which was getting stronger in series of 25 centuries, in era of Meiji in epoch of great reforms, during 26th century of Imperial govern in Nippon were organized by European schemes of government rule; but to all these schemes was given the national, historically proven, character by which the nation differs from each other, and

which shows the all sides of the nation. There was
great much experience and understanding ~~rather~~
in the moment of complete change and reform.
The nation to not to leave the national
part of it, not to create it and not to copy
it all. This copying in excess from other
nations had costed very much to some nations, it
was with Russia. All this was not enough, in
the process of fast reconstruction of it.

Вчерашний юбилей Ниппон

Вчера японская нация отмечала семидесятую годовщину основания своего министерства внутренних дел. Это министерство было создано в 1872 году в результате реформы всей системы государственного управления, проведенной великим японским реформатором, Е. В. Императором Мейдзи. В результате этой реформы страна раз и навсегда была связана в едином центре для всей страны — был принят единый план общественного устройства, проведение которого в жизнь дало в конечном итоге, через 70 лет, безprecedентные результаты стремительного развития духовных и физических сил нации. Перед лицом других наций мира японская нация являет собой совершенное единство, совершенную систему устройства внутренней жизни нации, совершенное организационное, спаянное единство всех тех элементов, которыми определяется мощь нации в международном масштабе.

Силами нации, механизмировавшимися в течение 25 тысяч

лет Мейдзи, в эпоху великих реформ, в течение 26 тысяч существования Императорской власти в Ниппоне были организованы по европейским схемам государственного устройства, но этим схемам был придан национальный, исторически утвердившийся характер, то своеобразное, чем отличается нация от нации, что определяет лицо нации. Нужно очень много опыта и понимания, чтобы в момент коренных реформ государственной жизни не выйти из своих национальных рамок, не упасть в крайность, не увлечься подражанием. Эти крайности — заимствования у других наций стояли очень дорого некоторым нациям, в том числе российской нации... Эти крайности в процессе быстрой перестройки своего государственного и общественного аппарата японская нация избегала и избегала благодаря тому, что семьдесят лет тому назад созданный аппарат министерства внутренних дел с исторически сложившейся подметей японского волеизъявления на него функционировал.
